INSPIRING
CHANGE

For Christmas 2021, make the festive season more sustainable and impactful than ever. Here at Social Supermarket, we bring together pioneering social enterprise and purpose-driven products on both our marketplace and within our curated hamper range.

That means, every hamper does some good in the world — from saving would-be waste from landfill to creating employment for marginalised people and donating to good causes.

We've made sure our Christmas hampers and gift boxes include something for every taste and budget. We're obsessed with taste-testing for the best quality festive tipples, sweet treats and savoury snacks. Many of our brands have been awarded the highest accolades for their work and products. Positive impact doesn't need to come at the expense of quality, taste or craftsmanship. You and those you're gifting really can have it all this Christmas.

We've named the hampers after types of trees and for every two hampers bought, we'll be planting a tree.

Want to see the good your gifts are doing at a glance? Our impact icons point to the social good you'll be creating when you order them.

Here's to a Merry Christmas for both people and planet,

Alex, Jamie & Matt

Measuring Impact

Tracking impact is not yet an exact science, but we work closely with our mission-led brands to be able to quantify the impact that every hamper creates.

That means that when you gift friends, family, colleagues or clients a Social Supermarket hamper you're giving two presents in one. And you can tell a real story about the positive ripple effect you've created.

We use impact icons to symbolise the types of impact our product range creates.

LEARN MORE ABOUT THE IMPACT OF EACH HAMPER USING OUR ICONS:

HERE ARE SOME HIGHLIGHTS FROM 2020:

50% of our brands are female-founded, such as Divine Chocolate and Rubies in the Rubble.

We helped Toast Ale save over 10,000 slices of surplus fresh bread from going to waste.

Orders that included NEMI Teas delicious organic teas created 54,000 minutes of employment for refugees in the UK.

LUX LUZ's candles funded 14 nights in a refuge for domestic abuse survivors and 12-week art therapy courses for seven women.

**BRAND
SPOTLIGHT**

Meet Oyin, founder Cocoa Social Enterprise CIC

Taking care of farmers means taking care of cocoa beans. And that means a better bar of chocolate. That's the premise behind Oyin's namesake chocolate line from her brand Cocoa Social Enterprise CIC. In fact, it sums up the concept of bean-to-bar chocolate — farmers are paid better wages, the pods that the cocoa beans come from are handled with better care. Oyin and her team source theirs from the likes of Nigeria, Ecuador and Peru, where they also support farmers' children with educational projects.

PRESENT BOX

Designed to be tall enough to fit a bottle of wine and look splendid under a Christmas tree, our present box features a blue ripple of change.

Bespoke Christmas Gifts

Looking for something a little more bespoke than our standard range? Explore how we can build bespoke hampers for you and your team. We can design your gifts based on a brief you supply — so they're completed tailored just for you and your team.

We are partnered with 100's of social enterprise brands from food & drink to clothing and wellbeing. This means we can create the perfect bespoke gift for your team or clients.

EXAMPLES OF GIFTS WE DELIVERED IN 2020

Co-branding your gifts

Whether you want something bespoke, or you love our ready-to-go range of hampers, below are some ways in which you can spice up your selection with some co-branding.

While personalising your gift with your logo or message is a perfect way to elevate your hamper, please note that co-branded packaging requires a longer lead time than our standard packaging. Please do get in touch with us to discuss options and to get a quote.

GIFT NOTE

We can include a personalised gift note in each hamper — whether you want to include a message from your CEO or or thank your team for their hard work in 2021, we can work with you to include the perfect gift note.

BOOKLET

Every hamper comes with a short booklet that explains a little about who Social Supermarket are and the impact that we and our brands create.

This booklet can be personalised with your logo, an opening message from your CEO or Team Leader and / or the impact stats specific to your order to inspire your recipients.

RIBBON

A finishing flourish that brings together your brand and ours. Speak to us about which gifts a tied ribbon works best with and we'll wrap your gifts with care.

TISSUE PAPER

Our ripple print tissue paper is iconic and symbolises the impact your order creates. Bring your company logo to this to elevate the unboxing experience.

STICKERS

In a hurry, but still want an element of co-branding? Use our standard tissue paper in combination with a co-branded sticker to bring your company logo into your unboxing experience for your team.

GIFT BOX

Prefer your logo on the gift box itself? We can absolutely do that. They'll know it's from you the minute they receive their gift. We will work with your team to design the perfect box for your gift.

LEAD TIME TO RECEIVE SIGN-OFF BEFORE DELIVERY (WORKING DAYS)

We've provided here an indication of the minimum number of units required for each co-branding option and the time required before your selected delivery date to confirm and print your bespoke packaging. Some items take longer than others due to printing processes. Please bear this in mind and we'd be happy to assist you with any questions you might have. Simply let one of the team know that you'd be interested in co-branding and we can explore the options with you.

Packaging & Sustainability

In the spirit of all that we stand for at Social Supermarket, we try to be as green as possible when it comes to our packaging.

**RECYCLED
MATERIALS**

Our boxes and wine sleeves are made from majority recycled materials and are recyclable. We also encourage people to reuse the boxes and give them a second life.

**SUSTAINABLE
PACKAGING**

We source our baskets from suppliers who prioritise sustainable farming methods, including using fast-growing regenerating crops without chemical intervention. All the production sites for our wicker hampers are full Sedex members. This involves being inspected regularly by independent ethical auditors. Our wicker hamper supplier's [Ethical Trading Policy](#) is publicly available. It's adapted from the base code of the Ethical Trading Initiative (ETI), which enshrines important workers rights and ensures living wages are paid.

**DISSOLVABLE
PACKAGING**

In packaging your order, we cushion contents using a fully biodegradable fill. So whatever you've ordered, it will arrive in good condition while minimising environmental impact. Win, win. You can throw the shredded cardboard fill in the recycling. Plus, what looks like packing peanuts are actually made from potato starch, so can go straight into your compost bin. Alternatively, you can dissolve them in water.

**MINIMISE
WASTE**

We always aim to minimise plastic waste throughout our packaging and products. We work with brands who see this as a priority too.

**VEGETABLE
INKS**

We use vegetable inks for our printing requirements, which is more eco-friendly than alternative and traditional inks.

**FAST
DELIVERY**

For many of our hampers and gift boxes we use DPD Next Day Delivery. This is a carbon neutral delivery method. For London, we are also now partnered with Hived, a zero-emissions courier. Even our photography studio plants trees for every photoshoot we book with them and this Christmas we're planting a tree for every two hampers ordered, too.

**CARBON
NETURAL**

We're planting a tree for every two hampers bought from our Christmas 2021 range. Additionally, every year we offset our carbon as standard in an effort to tread more lightly on this earth. On top of this, our photography studio plants trees for every photoshoot we book with them, too.
