SHARING STORIES

INSPIRING CHANGE

Christmas hampers and gifts that **help people and planet**

This holiday season, sending Social Supermarket gifts creates more social change than ever.

We're passionate about connecting people and businesses with pioneering social enterprises that are changing the world for the better. So, every sustainable gift contains delicious food and drink, as well as keepsake items, that have a social mission at their heart. From saving materials from going to landfill to creating employment opportunities for refugees through to funding marine conservation and rewilding projects.

To make sure our Christmas hampers include something for every taste and budget, we've taste-tested to find you the best quality festive tipples, sweet treats and savoury snacks. Many of our brands have been awarded the highest accolades, such as Great Taste Awards. Positive impact doesn't need to come at the expense of quality, taste or craftsmanship. You and those you're gifting really can have it all this Christmas.

See the good your gifts are doing at a glance. Impact icons show the social good you'll be creating. And now you'll be able to download your personalised impact report to share with your team, company and stakeholders to share the positive stories behind your gifts.

Here's to a Merry Christmas for both people and planet,

Alex, Jamie & Matt

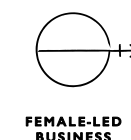

Measuring **impact**

Tracking impact is not yet an exact science, but we work closely with our mission-led brands to be able to quantify the impact that every hamper creates.

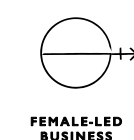

That means that when you gift friends, family, colleagues or clients a Social Supermarket hamper you're giving two presents in one. And you can tell a real story about the positive ripple effect you've created.

We use impact icons to symbolise the types of impact our product range creates.

Learn more about the impact of each hamper using our icons:

So far together we have

BRAND
SPOTLIGHT

Meet Morgan and Elaine, co-founders of **Crumbs Brewing**

Co-founders (and husband and wife) Morgan and Elaine have been turning bread into beer since 2017 after teaming up with their local bakery, Chalk Hills Bakery in Surrey. Spurred on by the fact that 44% of bread in the UK is thrown out, they're doing their bit to fight food waste. They collect unsold loaves from the bakery and turn one artisan product into another. Each craft beer takes on the flavour of the delicious bread — like a zesty Sourdough Pale Ale or a warming Rye Ruby Ale.

Meet Alice, founder of Luminary Bakery

This London-based social enterprise helps women facing multiple social and economic disadvantages reach their full potential. All through baked goods. All too often, they've experienced an intersection of gender-based violence, low income, poor physical and mental health, substance misuse and homelessness. Luminary provides a space where women can overcome these experiences. Joining the bakery sets them on a holistic programme of training and support, leading onto sustainable employment opportunities.

It's no overstatement to call this programme life-changing.

Brand impact:

FEMALE-LED BUSINESS

The UK's female unemployment rate grew from 1.7% to 7.4% in 2020. As well as being female-founded, Luminary equips their beneficiaries to build their own futures and many graduates of the programme start their own businesses.

ECONOMIC EMPOWERMENT

Last year, the bakery supported 71 women. 75% of those experienced at least three forms of disadvantage, including gender-based violence.

HANDMADE

The business employed 10 Luminary graduates in 2021, in roles ranging from Café Assistant to Café Supervisor, Bakery Apprentice to Artisan Baker and more in-between.

Tell the Story

We can work to create a bespoke message on wildflower seeded paper or a recycled paper to give your recipients alongside your gift.

You might like to offer a thanks for a year's hard work, a reminder to rest and recharge over the holiday season, as well as inspire your recipients with the social impact behind the gift you're giving.

Co-branding your gifts

Whether you want something bespoke, or you love our ready-to-go range of hampers, below are some ways in which you can spice up your selection with some co-branding.

While personalising your gift with your logo or message is a perfect way to elevate your hamper, please note that co-branded packaging requires a longer lead time than our standard packaging (see the following page for timings). Please do get in touch with us to discuss options and to get a quote.

Gift note

We can include a personalised gift note in each hamper — whether you want to include a message from your CEO or or thank your team for their hard work in 2022, we can work with you to include the perfect gift note.

Booklet (See left)

Every hamper comes with a short booklet that explains a little about who Social Supermarket are and the impact that we and our brands create. This booklet can be personalised with your logo, an opening message from your CEO or Team Leader and/or the impact stats specific to your order to inspire your recipients.

Ribbon

A finishing flourish that brings together your brand and ours. Speak to us about which gifts a tied ribbon works best with and we'll wrap your gifts with care.

Tissue Paper

Our ripple print tissue paper is iconic and symbolises the impact your order creates. Bring your company logo to this to elevate the unboxing experience.

Stickers

In a hurry, but still want an element of co-branding? Use our standard tissue paper in combination with a co-branded sticker to bring your company logo into your unboxing experience for your team.

Gift Box

Prefer your logo on the gift box itself? We can absolutely do that. They'll know it's from you the minute they receive their gift. We will work with your team to design the perfect box for your gift.

Lead time to receive sign-off for co-branded packaging (working days)

We've provided here an indication of the minimum number of units required for each co-branding option and the time required before your selected delivery date to confirm and print your bespoke packaging. Some items take longer than others due to printing processes. Please bear this in mind and we'd be happy to assist you with any questions you might have. Simply let one of the team know that you'd be interested in co-branding and we can explore the options with you.

Packaging and Sustainability

In the spirit of all that we stand for at Social Supermarket, we try to be as green as possible when it comes to our packaging.

RECYCLED MATERIALS

Our boxes and wine sleeves are made from majority recycled materials and are recyclable. We also encourage people to reuse the boxes and give them a second life.

SUSTAINABLE PACKAGING

We source our baskets from suppliers who prioritise sustainable farming methods, including using fast-growing regenerating crops without chemical intervention. All the production sites for our wicker hampers are full Sedex members. This involves being inspected regularly by independent ethical auditors. Our wicker hamper supplier's [Ethical Trading Policy](#) is publicly available. It's adapted from the base code of the Ethical Trading Initiative (ETI), which enshrines important workers rights and ensures living wages are paid.

DISSOLVABLE PACKAGING

In packaging your order, we cushion contents using a fully biodegradable fill. So whatever you've ordered, it will arrive in good condition while minimising environmental impact. Win, win. You can throw the shredded cardboard fill in the recycling. Plus, what looks like packing peanuts are actually made from potato starch, so can go straight into your compost bin. Alternatively, you can dissolve them in water.

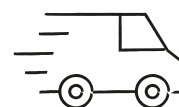

MINIMISE WASTE

We always aim to minimise plastic waste throughout our packaging and products. We work with brands who see this as a priority too.

VEGETABLE INKS

We use vegetable inks for our printing requirements, which is more eco-friendly than alternative and traditional inks.

FAST DELIVERY

For many of our hampers and gift boxes we use DPD Next Day Delivery. This is a carbon neutral delivery method. For London, we are also now partnered with Hived, a zero-emissions courier.

CARBON NEUTRAL

Every year we offset our carbon as standard in an effort to tread more lightly on this earth.
